

ATHLETE RATINGS • ALL MEASURED METRICS

PLAYER PROFILES

JAMES LAWSON LIGHTNING

HOW TO READ THESE RATINGS

Every score is a percentile against this roster — a 90 in Strength means the athlete out-lifts 90% of the team. Categories: **Explosiveness** (vertical + broad jump), **Upper Body** (bench press), **Lower Body** (front squat + deadlifts), **Rel. Strength** (max pullups), **Speed & Agility** (5-10-5), and **Engine** (mile). An overall score and rank is only given to athletes who have completed **all six tests** — it isn't fair to score anyone on partial data. **Balance** measures how well-rounded an athlete is — 100 means every category is at the same level; the ▼ marks the category to develop next.

ELITE	80–100 overall
ADVANCED	65–79 overall
SOLID	45–64 overall
DEVELOPING	under 45
